**Project** : MODERN Premium Resume Website Template

**Version** : 1.0

**Author** : Modern Themes

**Email** : [amroomi@gmail.com](mailto:amroomi@gmail.com)

**Demo** : <http://www.bestsoftoffers.com/Template/PremiumResumeNew>

Hello and thank you for purchasing **MODERN Premium Resume** website template! This is the perfect high-quality solution for those who want a beautiful Portfolio/Resume web page. It's fully responsive and will adapt itself to any mobile device iPad, iPhone, Android, it doesn't matter. Your content will always look its absolute best. This documentation guides you through the main features of this template and shows you how to use and customize. If you have any further questions just drop me a line to [amroomi@gmail.com](mailto:amroomi@gmail.com)

This is a responsive, modern and clean Portfolio/Resume Website Template. This website template is packed with Typed JS, Parallax Effect, Sliders, Font Awesome, Contact Form and many more. You can include little bit about yourself and your contact information such as Address, Phone and email information.

## Included Files

This template has two major designs as Single Page Template and Multi Page Template. Each design templates has three variations of home pages as Default Banner, Ripple Effect and Particleground. Every pages in this template has easily customizable 15 different color themes.

The template is packed as HTML files. Apart from the HTML files, the template also consist of CSS, JS, PHP files and images as well.

### Single Page Template HTML Files

- one-page-default.html
- one-page-ripples.html
- one-page-particleground.html

### Multipage Template HTML Files

- multi-page-default.html
- multi-page-ripples.html
- multi-page-particleground.html
- about.html
- services.html
- portfolio.html
- reviews.html
- contact.html

### Contact Backend Processing File

- contact.php

## Technology

This template is based on the latest Bootstrap framework for fully flexible and responsive layouts. It also uses the latest web technology HTML5 for semantic content structuring and CSS3 for versatile and powerful styling options.

## Usage – Customization

### HTML

Now comes the really interesting part! Learn how to use and customize this template to fit your needs. The most important thing for you to do is actually consider the HTML source code and see how elements are written! The clean and commented code makes it easy for you to copy code blocks from content modules and paste them in different places or layouts.

## Example:-

```
<!-- Top Navigation START -->
<nav class="navbar fixed-top navbar-expand-md navbar-light bg-light top-navigation">
  <div class="container">
    <a class="navbar-brand" href="#home">Modern Portfolio</a>

    <button class="navbar-toggler" type="button" data-toggle="collapse" data-target="#top-navbar" aria-controls="top-navbar" aria-expanded="false" aria-label="Toggle navigation">
      <span class="navbar-toggler-icon"></span>
    </button>

    <div class="collapse navbar-collapse" id="top-navbar">
      <ul class="navbar-nav ml-auto">
        <li class="nav-item">
          <a class="nav-link active" href="#home">Home</a>
        </li>

        <li class="nav-item">
          <a class="nav-link" href="#about">About</a>
        </li>

        <li class="nav-item">
          <a class="nav-link" href="#service">Services</a>
        </li>

        <li class="nav-item">
          <a class="nav-link" href="#portfolio">Portfolio</a>
        </li>

        <li class="nav-item">
          <a class="nav-link" href="#review">Reviews</a>
        </li>

        <li class="nav-item">
          <a class="nav-link" href="#contact">Contact</a>
        </li>
      </ul>
    </div>
  </div>
</nav>
<!-- Top Navigation END -->
```

## Color Themes

MODERN Premium Resume Website Template comes with 15 different color themes and each color is associated with its specific CSS file located in **/assets/css/color-scheme** folder. By default **color-beige.css** file is included in every HTML file and just change the next line in the section of HTML code to the color you prefer:

```
<!-- Color Scheme CSS -->
<link rel="stylesheet" href="assets/css/color-scheme/color-beige.css">
```

## Typed JS

Typed JS functionality can easily be added to a division with appropriate default settings, although you do need to set the target options. You can also remove the Typed JS section if it is no longer required. You can add any sentences to show it as a typing effect in the main banner.

```
<div id="typed-strings">
  <span>Senior Software Engineer</span>
  <span>Project Coordinator</span>
  <span>Web Developer</span>
  <span>Graphic Designer</span>
</div>
<h3><span id="typed"></span></h3>
```

## Count Up

Strength section in the template consists of count up timer and its counter values are set in JavaScript code located in the bottom of the specific page. You can remove the strength section and its corresponding JavaScript if you no longer require.

```
// Strength Count Up
$('.strength').one('inview', function(event, isInView) {
  var options = {
    useEasing: true,
    useGrouping: false,
    separator: '',
    decimal: ''
  };

  new CountUp('counter-project', 0, 353, 0, 2.5, options).start();
  new CountUp('counter-client', 0, 121, 0, 2.5, options).start();
  new CountUp('counter-experience', 0, 10, 0, 2.5, options).start();
  new CountUp('counter-award', 0, 25, 0, 2.5, options).start();
});
```

For more information about Count Up plugin, please visit <https://inorganik.github.io/countUp.js>

## Portfolio Filter

Portfolio Section contains set of images which gives the power to filter them with beautiful animation. MixItUp is the plugin used to for this filtering and it plays nice with your existing HTML and CSS, making it a great choice for responsive layouts and compatible with inline-flow, percentages, media queries, flexbox and more.

For more information about MixItUp plugin, please visit <https://github.com/patrickkunka/mixitup>

## Contact Form

Fully functional Contact form is available in the template and it uses AJAX for submitting data. The form validation and AJAX request is written in **util.js** file located in **/assets/js/** folder.

```
$.ajax({
  type: 'POST',
  url: 'contact.php',
  data: contactForm.serialize(),
  success: function(response) {
    var output = $.parseJSON(response);

    if (output.Type == 'Success') {
      responseDisplay.removeClass('alert-danger').addClass('alert-success').html(output.Message);
    } else if (output.Type == 'Error') {
      responseDisplay.removeClass('alert-success').addClass('alert-danger').html(output.Message);
    }
  }
});
```

AJAX request from the contact form will be handled in the server using a PHP script **contact.php**. Server side script can be customized according to your requirement.

## Google Map

Easily customizable google map is integrated with this template and all the necessary JavaScript is written in **util.js** file located in **/assets/js/** folder. Google API Key is integrated by default and you can integrate your own Key in order to load the map.

```
<!-- Google Map -->  
<script src="https://maps.googleapis.com/maps/api/js?key=AIzaSyB_wGWMl2iJ-ixWJI525qrGsnxFgkieSro&callback=initMap" async defer></script>
```

For more information about API Key please visit

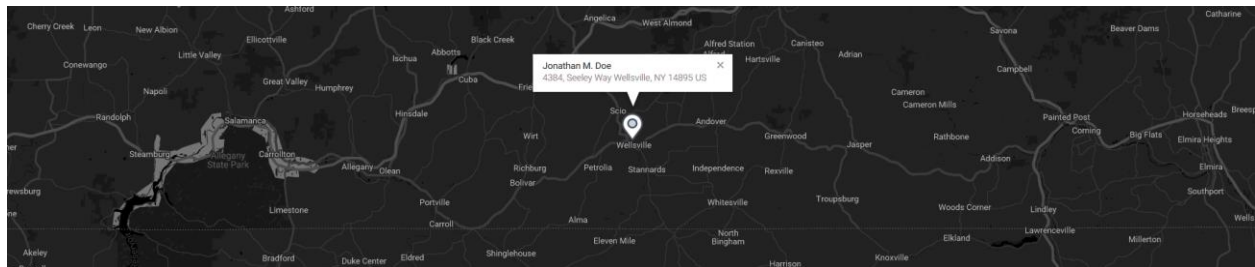

<https://developers.google.com/maps/documentation/javascript/get-api-key>

You can add your Location, Name and Contact Information in the map only changing HTML code.

```
<!-- Google Map -->  
<div class="contact_map" id="contact_map" data-lat="42.1226849" data-lng="-77.9504916" data-title="Jonathan M. Doe" data-content="4384, Seeley Way Wellsville, NY 14895 US"></div>
```

- **data-lat** : Latitude
- **data-lng** : Longitude
- **data-title** : Pointer Title
- **data-content** : Description of the Pointer

The pointer icon on the map displays the **Title** and **Content Description** as follows.
